Sonic Solutions announces Mexico Distribution Agreement with Jetrix Soluciones Gráficas

MOKENA, IL (October 15, 2018) – Sonic Solutions, a leading manufacturer of ultrasonic anilox roll cleaning equipment, cleaning solutions and roll cleaning services announced today an agreement with Jetrix Soluciones Gráficas, S.A. de C.V. to represent their anilox cleaning solutions to the flexographic market in Mexico.

“This alliance is an excellent opportunity to expand in this important region, considering the constant growth in label printing and flexible packaging in Mexico. Our wide range of product offerings are perfectly aligned with the market demand for cost effective anilox roll cleaning options – from smaller rolls to our newest dual sleeve cleaning system. Our cleaning solutions save printers time and money so that their presses keep running,” comments Joe Walczak, President of Sonic Solutions LLC. “We’re very optimistic with this alliance and how deeply entrenched Jetrix is within the flexographic market and look forward to putting our trust with them. It’s a real winning opportunity for both companies.”

Julián Robledo, General Manager of Jetrix, comments, "This alliance with Sonic Solutions will allow us to assist our customers in the best possible way, meeting their needs for the most innovative solutions with the latest technologies. With Sonic Solutions we will now be able to offer our customers better options for the care and maintenance of all their anilox rolls. I'm sure it will be a successful partnership."

###
